Note: These numbers do not represent all clients served from Jan 1, 2018 - Dec 31, 2018 as 19.9% of the clients did not have an accurate "Last Permanent Zip Code" record in their profiles. These numbers were pulled from the 80.1% where the data was available and represented a valid US zip code. Zip codes were not originally intended for geographical mapping. The location information database used is based on the US Census Bureau's Zip Code Tabulation Areas, and is accessible at <https://simplemaps.com/data/us-zips>. Because of this, some zip codes are both inside and outside the city of Vancouver.

Note: Zip codes were not originally intended for geographical mapping. Several zip codes are both inside and outside Clark County. These are the ZIP codes the post office associates with Clark County with the addition of 98674 (Woodland) which is primarily associated with Cowlitz County but is partially contained within Clark County. ZIP codes 98668 (3 persons) and 98687 (2 persons) are too small to be effectively included in this map, but are associated with the north end of Vancouver Lake.
